Race and Ethnicity: Key Concepts

- The Census Bureau collects race and ethnicity data according to Office of Management and Budget (OMB) standards
- OMB defines race and ethnicity as two separate concepts. People of Hispanic or Latino origin may be of any race group(s)
- Collection is based on self-identification
- People may identify with one or more race groups

Understanding AIAN Population Group Filters

Filters that add words to the URL provide data from standard tables

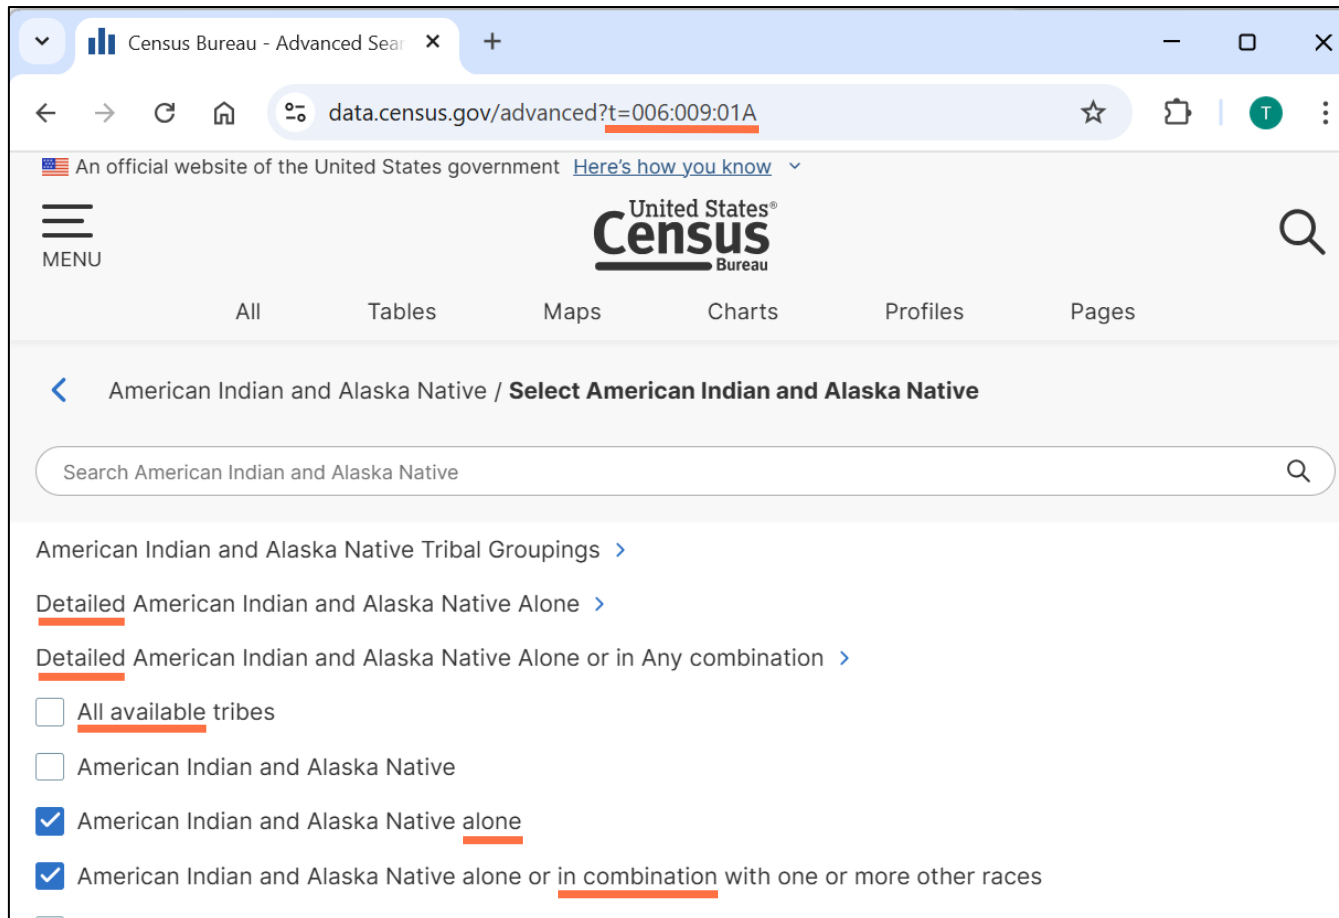

The screenshot shows the Census Bureau Advanced Search interface. The browser address bar displays the URL: `data.census.gov/advanced?t=American+Indian+and+Alaska+Native`. An orange arrow points from the text 'Filters that add words to the URL provide data from standard tables' to the word 'American' in the URL. The page content shows the 'American Indian and Alaska Native' filter selected under the 'Detailed American Indian and Alaska Native Alone or in Any combination' category. The 'SEARCH' button is at the bottom.

Filters that add codes to the URL provide data from iterated tables

The screenshot shows the Census Bureau Advanced Search interface. The browser address bar displays the URL: `data.census.gov/advanced?t=009`. An orange arrow points from the text 'Filters that add codes to the URL provide data from iterated tables' to the code '009' in the URL. The page content shows the 'American Indian and Alaska Native alone or in combination with one or more other races' filter selected under the 'Detailed American Indian and Alaska Native Alone or in Any combination' category. The 'SEARCH' button is at the bottom.

Other Indications of Code-Based Filters for Iterated Tables

- 1) Any race/ethnicity filters that contain the words: “All available,” “alone,” or “in-combination”
- 2) All filters found within race/ethnicity options that begin with the word Detailed

Why Am I Getting “Data Not Available” Message?

Why Do I Not See Columns for All Selected Race/Ethnic Groups?

Minimum population and/or unweighted sample case requirements have not been met.

Use a higher-level race group, ethnic group, or geography. Or use iterated tables that have lower population thresholds.
